

smart, effortless & indulgent

the 811 and 821 Hot Chocolate systems from Cafe Bar combine quality with speed of service.

When you want delicious, smooth, indulgent whipped hot chocolate in just seconds, this clever machine delivers cup after cup at the touch of a button. With a variety of liveries, including Cafe Bar, Cadburys and Fairtrade, these machines fit perfectly into any back bar or self service operation.

smart, effortless & indulgent

the 811

The 811 single canister machine serves your favourite chocolate in a variety of cup sizes. The preprogrammed selection buttons can be set to deliver three different volumes of delicious whipped hot chocolate. Another unique feature of the 811 is the water button which allows hot water to be dispensed either as a set measure or on demand. The ingredient canister has a large capacity of 4.2 litres of powdered chocolate mix which means longer time between filling.

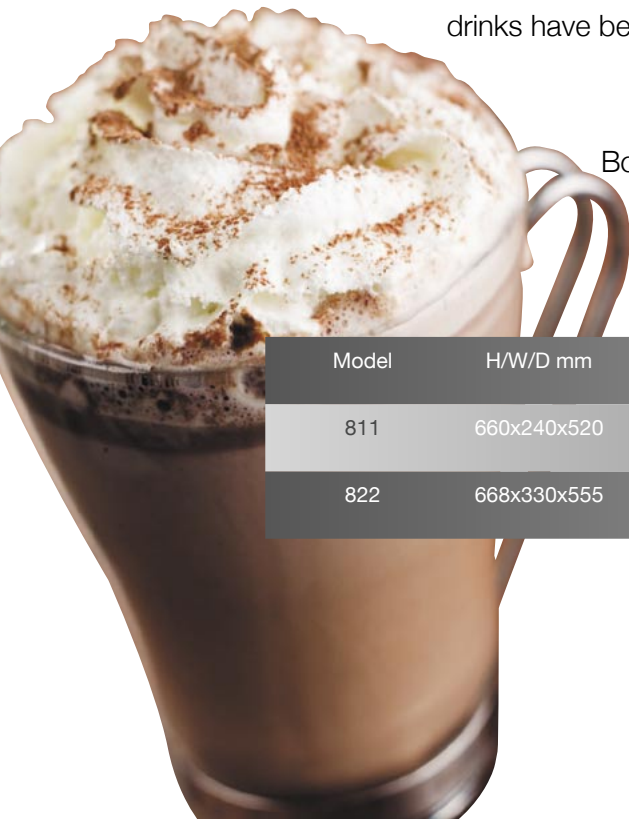

the 822

The 822 is designed with 2 canisters, one of which holds 4.2 litres of chocolate mix powder whilst the other 2.1 litre canister holds a low calorie alternative. The programmable selection buttons allow two sizes of regular chocolate to be dispensed as well as two sizes of a low calorie option. This machine offers a large capacity together with product choice for the health conscious.

controlled convenience

Both models have a variety of convenient features including a cleaning cycle which flushes hot water through all the pipes and the whipping chamber for easy maintenance. The machine can even be set to remind the operator when the canisters are likely to need replenishing. An audit facility shows how many drinks have been served for ease of stock analysis and accounting.

Both models have an attractive illuminated front display graphic which can be changed to reflect the offering, whether it be Cadbury, Cafe Bar or Fairtrade chocolate being served. There is also an option to bespoke brand the machine.

Model	H/W/D mm	Canisters	Cup sizes	Speed (7oz cup)	Canister capacity (powder)	Power
811	660x240x520	1	3 plus hot water	8 seconds	4.2litres	3060W 230V
822	668x330x555	2	2 x 2 selections	8 seconds	4.2 litres & 2.1 litres	3060W 230V
